

Please do not expand the LPFM service so that K-LOVE -100.1 is taken from my area. My children and I listen to K-LOVE several hours a day. While in the car, K-LOVE's inspiring music helps me deal with the traffic. K-LOVE tells us when concert events are happening in the community. Countless families I know of rely on the positive and encouraging music K-LOVE offers their children. The effect of this proposed action on the community will be the complete loss of many radio listeners. We will chose CD's and completely turn off the radio if we cannot listen to K-LOVE -100.1 FM. The service K-LOVE offers to the community is evident by the listener's financial support of the station year by year. Thank you.
